Controlling Officer: Programmes under which this Council will be accounted for by the Town Clerk, Ndola City Council

Under this programme, the Council will continue to promote integrated development planning using its approved IDP as the principal planning tool for enhancing coordination in spatial, social and economic development of the district. In order to address various spatial challenges in the district such as unplanned residential areas and informal settlements, inadequate housing, unavailability of services plots, Council plans to create six (6) local area layout plans in Misaka (Phase 2) covering a total area of approximately 500 Ha, Kaniki, Mwenye and Dolar Hill that will cater for various land uses ranging from residential, commercial, institutional to industrial uses. The proposal to open phase 2 has also been necessitated by the overwhelming response received from members of the public where all the plots in Misaka Phase 1 were sold, signifying a huge demand for serviced land. In an effort to improve Land Management and Information System in the district, the council plans to number 2,000 different parcels of land, the majority of parcels emanating from layout plans for newly opened areas. The Council also plans to prepare 4,000 survey diagrams particularly for plots to be created in Misaka Phase 2 once they are surveyed.

Under, socio-economic planning, the Council plans to participate in three (3) HIV/AIDS commemoration activities which includes the 16 Days of Gender Activism, Voluntary Counselling and Testing (VCT) Day and World AIDS Day. This is to increase awareness on GBV and HIV/AIDS in order to contribute to achieving the national target of 95:95:95.

The Public Order and Safety programme aims to enforce adherence to by-laws and promote the safety of persons and property. In 2026, the programme has set clear output targets to translate its increased budget into tangible security and regulatory outcomes.

A major focus will be on proactive fire prevention, with plans to conduct 4,000 fire inspections, hold 100 fire safety trainings, and issue 1,500 fire certificates. The fire brigade commits to attending to 100% of fire emergencies, aiming for a response time within 10 minutes for a 10-kilometer radius.

In the realm of building safety and regulation, the council plans to scrutinize 100% of submitted building plans and issue 1,000 building permits to ensure all construction adheres to safety standards. Furthermore, to maintain public order, the council police will conduct 200 patrols. These targeted outputs demonstrate a comprehensive strategy aimed at preventing disasters, ensuring regulatory compliance, and enhancing the overall safety and security of the district.

The District Health Services programme has set ambitious and comprehensive output targets for 2026, focusing on preventive care, clinical treatment, and systemic strength to provide safe and accessible healthcare.

In Preventive and Outreach Services, the council aims for universal coverage, targeting 100% immunization for children under one, 100% of pregnant women attending their first antenatal care (ANC) in the first trimester, and 95% of teenagers attending their first ANC visit. These targets are set against a backdrop of 2025 performance where these indicators were at 81.6%, 38.2%, and 13% respectively, highlighting a significant drive for improvement.

For Clinical Care, the goals are to achieve 100% skilled assistance at deliveries, 100% HIV-positive clients receiving Antiretroviral Therapy (ART) with a suppressed viral load, and to diagnose and treat 93% of all incident TB cases. A critical target is to reduce malaria incidence to 7 confirmed cases per 1,000 population, building on the progress from 8.5 in 2025.

In Community and Family Health, the programme will ensure 100% of households have at least one insecticide-treated net (ITN) and that 100% of children under five with Severe Acute Malnutrition (SAM) are treated, a notable increase from the 75% achieved in 2025.

To underpin all these services, the Administrative wing will provide technical support and supervision to 100% of health facilities and conduct assessments of 90% of facilities, ensuring a robust foundation for quality healthcare delivery across the district.

Executive Authority:**Controlling Officer:** Programmes under which this Council will be accounted for by the Town Clerk, Ndola City Council

The Agricultural Services programme has set comprehensive output targets for 2026, building on the previous year's achievements to further promote climate resilience, skill development, and market access.

A primary objective is to expand the reach of climate-smart agriculture by training 13,600 farmers, an increase from 13,000 in 2025, and enhancing capacity by training 20 field officers in these practices. The programme will continue to support 17 Farmer Field Schools (FFSs) and train 20 farmers in mechanization.

To enhance production capabilities, the programme will maintain its focus on crop diversification by training 1,000 farmers and will continue to promote irrigation technologies by training 50 farmers and mapping 1 irrigation scheme site.

Knowledge dissemination remains a key pillar, with plans to produce 12 TV and radio programmes and disseminate 3 agricultural publications. In the realm of trade and business, the programme will issue 2,000 import and export permits and collect 52 weekly price datasets to maintain a robust Market Information System. Additionally, 4 entrepreneurship training sessions will be conducted to strengthen agribusiness skills. These outputs represent a consistent and holistic strategy to boost productivity, sustainability, and profitability for farmers in the district.

The Fisheries and Livestock Programme has set comprehensive output targets for 2026, focusing on enhancing farmer skills, ensuring animal health, and promoting sustainable practices.

A major focus will be on farmer training and development, with plans to double the training of fish farmers to 1,000 individuals and increase training for 130 farmers in animal health care and the identification of notifiable diseases. Additionally, 150 farmers will receive training in agribusiness skills to improve their commercial viability.

In the critical area of animal health and disease control, the programme will conduct disease surveillance activities on 15 farms and hold 3 sensitization meetings on standard livestock movement protocols to prevent outbreaks.

For sustainable resource management, the programme will enforce fishing bans through 10 patrols and conduct 3 community sensitizations on fish resource conservation. Furthermore, 2 climate-smart livestock technologies will be promoted to enhance resilience.

To ensure effective programme delivery, 4 monitoring visits and 2 stakeholder review meetings will be held, complemented by the validation of 12 market bulletins and participation in 5 district, provincial, and national shows to disseminate information and showcase achievements. These efforts are supported by 50 field visits to provide direct extension services to farmers.
